

FinSakhi - UPI & QR Code Safety Manual

Published by Pon Crystal Foundation | Emergency Cyber Fraud Helpline: 1930

1. GOLDEN RULE OF UPI PAYMENTS

? UPI PIN IS ONLY REQUIRED TO SEND OR PAY MONEY. YOU NEVER NEED TO ENTER A PIN TO RECEIVE MONEY!

? If a customer or stranger asks you to enter your PIN to receive money, IT IS A FRAUD SCAM!

2. Verifying Customer QR Payments at Your Shop

? Never rely on screenshots shown on the customer's phone (Fake UPI payment apps exist!).

? Check your own mobile phone for official SMS alerts from your bank or payment app.

? Set up a Soundbox / Speaker device at your shop counter for instant audible payment confirmation.

3. QR Code Counter Security

? Inspect your physical QR code stand every morning to ensure no scammer stuck their sticker over yours.

? Never click on unknown links sent via WhatsApp or SMS claiming to be UPI cashback or rewards.

4. Golden Hour Action Plan if Scammed

? Call National Cyber Crime Helpline 1930 IMMEDIATELY within 1 hour of unauthorized transaction.

? File an official online complaint at cybercrime.gov.in to freeze the fraudster's bank account.
